

# The TranSorter™

*Flexible, adaptable and affordable all come together.*

Designed specifically for high-flex distribution center and supply chain applications, SpanTech's game-changing TranSorter brings you revolutionary sorting capabilities in a highly affordable alternative to bulky, big-dollar systems.

Its unique, retractable-nose conveyor design lets you seamlessly – and simultaneously – sort wide ranges and sizes of merchandise and parcels, from small, ultra-lightweight polybags to cartons up to 50 pounds. All in a modular, small-footprint form that quickly adapts for almost any configuration.
